

SAFETY DATA SHEET (SDS)

	Section 1. Identified	cation			
Product identifier AN	TISTATIC				
Other means of identification 13312					
Recommended use and restrictions on use Protector. 312 g aerosol container.					
Initial supplier identifier Asalco Inc. 44, ch. Des Ursulines, Stanstead, Québec (Canada), JOB 3E0					
Telephone 819-876-2211; Fax 819-876-5373; Internet <u>www.asalco.com</u>					
Emergency telephone nur	Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666				
Section 2. Hazard identification					
Classification of hazardous product (name of the category or subcategory of the hazard class)					
Extremely flammable aeros					
Gas under pressure (compressed gas)					
Eye irritation (Category 2A)					
	ty - single exposure (Category 3), Central nervous sys		<u> </u>		
Information elements (syn	mbols, signal words, hazard statements and precau	tionary statements of the category	y/subcategory)		
Danger					
H222 Extremely flammable					
H229 Pressurized container					
	ressure; may explode if heated.				
H319 Causes serious eye ir H336 May cause drowsines					
	and cause rapid suffocation. P210 Keep away from h	eat hot surfaces sparks open flan	nes and other ignition sources		
	spray on an open flame or other ignition source. P2				
	s/spray. P264 Wash hands/nails/face thoroughly after				
	es/ protective clothing/ eye protection/ face protection				
	ontact lenses, if present and easy to do. Continue rins				
	ED: Remove person to fresh air and keep comfo				
	rotect from sunlight. Do not expose to temperatures				
	405 Store locked up. P501 Dispose of contents/cor	tainer into safe container in accor	rdance with local, regional or		
national regulations.					
Other hazards known		a simple asphyxiant***			
	Section 3. Composition/informa				
Chemical name (common	name/synonyms)	CAS number or other	Concentration (%)		
Ethanol		64-17-5	60-100		
Isobutane		75-28-5	15-30		
Propane		74-98-6	1-5		
	Section 4. First-aid n				
Inhalation	IF INHALED: Remove person to fresh air and keep				
Ingestion	IF SWALLOWED: Immediately call a doctor. DO				
	victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have				
~~~	victim drink two glasses of water. If vomiting occur				
Skin contact	IF ON SKIN, Wash with plenty of water for several minutes (15-20). If skin irritation occurs: Get medical attention.				
Eye contact	IF IN EYES, Rinse cautiously with water for sever		t lenses, if present and easy to		
	do. Continue rinsing. If eye irritation persists: Get				
Most important symptoms and effects (acute or delayed)     Eye irritation.					
Indication of immediate medical attention/special treatment       In all cases, call a doctor. Do not forget this document.					
Section 5. Fire-fighting measures					
Specific hazards of the hazardous product (hazardous combustion products) Carbon oxides and other irritent/toxic gauge and fumes					
Carbon oxides and other irritant/toxic gases and fumes.					
Suitable and unsuitable extinguishing media           In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.					
Special protective equipment and precautions for fire-fighters					
		no anoo with out an an an and a d	Einsfightens about 1		
	ic smoke and fumes may be generated. Do not enter fi				
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to beat and flame.					
Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.					

Section 6 Accidental	relegse megsures				
Section 6. Accidental release measures Personal precautions, protective equipment and emergency procedures					
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up					
should wear the appropriate protective equipment (See Section 8).					
Methods and materials for containment and cleaning up					
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then					
	place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.				
Notify the appropriate authorities as required.					
Section 7. Handling	g and storage				
Precautions for safe handling Wear protective gloves/ protective clothing/ eye protection/ face protection. Protect from sunlight. Do not expose to temperatures exceeding 50					
<ul> <li>°C/122 °F. Keep away from heat/sparks/open flames/hot surfaces No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Use only outdoors or in a well-ventilated area.</li> <li>Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8. Keep out of reach of children.</li> <li>Conditions for safe storage, including any incompatibilities</li> </ul>					
Store in a well-ventilated place. Keep container tightly closed. Keep cool. S	tore locked up. Store	away from incompatible materials (Section 10).			
Inspect all incoming containers to make sure they are properly labelled an		rage area should be clearly identified, clear of			
obstruction and accessible only to trained personnel. Inspect periodically for	damage or leaks.				
Section 8. Exposure control					
Control parameters (biological limit values or exposure limit values and					
Exposure limits: CAS 74-98-6 & 75-28-5 - ACGIH - TLV-TWA (STEL)	and/or PEL-TWA 10	00 ppm; CAS 64-17-5 – ACGIH – TLV-TWA			
1000 ppm & PEL-TWA 1000 ppm;					
Appropriate engineering controls					
Use under well-ventilated conditions. Local exhaust ventilation system i exposure limits. Make emergency eyewash stations, safety/quick-drench sho					
Individual protection measures/personal protective equipment	wers, and washing fac	indes available in work area.			
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.					
Section 9. Physical and c					
Appearance, physical state/colour         Clear liquid (aerosol)	Vapour pressure	Not available			
Odour Odourless	Vapour density	Not available			
Odour threshold Not available	Relative density	~0.727			
pH Not available	Solubility Solub				
Melting/freezing point         Not available		t - n-octanol/water Not available			
Initial boiling point/rangeNot availableFlash pointNot available (flame projection 15-100 cm & a flashback)	Auto-ignition temperature         Not available				
Flash pointNot available (flame projection 15-100 cm & a flashback)Evaporation rateNot available	Decomposition temperature         Not available           Viscosity         Not available				
Flammability (solids and gases)         Extremely flammable aerosol	VISCOSITY NOT availa				
Upper and lower flammability/explosive limits Not available	Other None know				
Section 10. Stability and reactivity					
Reactivity	una reactivity				
Does not react under the recommended storage and handling conditions prescri	ibed.				
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.					
Conditions to avoid (static discharge, shock or vibration)					
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products None known					
NORE KHOWH					

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)         auses serious eye irritation. May cause drowsiness or dizziness. May displace oxygen and cause rapid suffocation.         ymptoms related to the physical, chemical and toxicological characteristics         kin irritation, redness, stinging, pain; Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness, rowsiness, nausea and headaches.         elayed and immediate effects (chronic effects from short-term and long-term exposure)         kin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; arcinogenicity – No ingredient listed by IARC, ACGIH, NTP; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Ingle Exposure – Possible; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – – No data available; ealth Hazards Not Otherwise Classified – No data available.         umerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀ )         AS 75-28-5 LC ₅₀ 658000 mg/m ³ 4 hrs (rat); CAS 64-17-5 LD ₅₀ Oral - Rat - 7060 mg/kg & LC ₅₀ - Mouse – 21000 ppm 4H;

Section 12. Ecological information				
cotoxicity (aquatic and terrestrial information) No data available for this product.				
Persistence and degradability         No data available for this product.				
Bioaccumulative potential No data available for this product.				
Mobility in soil No data available for this product.				
ther adverse effects No data available				
Section 13. Disposal considerations				
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
N number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
N1950; AEROSOLS; CLASS 2.1				
N number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
N1950; AEROSOLS; CLASS 2.1				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)				
UN1950; AEROSOLS, FLAMMABLE; CLASS 2.1				
pecial precautions (transport/conveyance) May also be shipped as a LIMITED QUANTITY in accordance with TDG.				
nvironmental hazards (IMDG or other) None				
Bulk transport (usually more than 450 L in capacity) Not possible				
Section 15. Regulatory information				
afety/health Canadian regulations specifics   Refer to Section 2 for the appropriate classification. This product has been classified in				
accordance with the hazard criteria of the Hazardous Products Regulations (HPR).				
nvironmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL				
Safety/health/environmental outside regulations specifics				
United States OSHA information: This product is regulated according to OSHA (29 CFR).				
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.				
United States TCSA information: Refer to the ingredients listed in Section 3.				
National Fire Protection Association (NFPA):				
HEALTH: 2 FLAMMABILITY: 4 INSTABILITY: 1 SPECIAL HAZARDS: Refer to Section 2 & 3.				
HAZARD SCALE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$
