

## SAFETY DATA SHEET (SDS)

Section 1 Ider	. ,				
Section 1. Identification					
Product identifier SUPER WASH					
Other means of identification         AE202           Recommended use and restrictions on use         Electronic equipment cleaner/400 g aerosol container.					
Initial supplier identifier Asalco Inc. 44, ch. Des Ursulines, Stanstead Telephone 819-876-2211; Fax 819-876-537					
	C 24 hour number 613-996-6666				
Section 2. Hazard					
Classification of hazardous product (name of the category or subcategory of the hazard class)					
Extremely flammable aerosol (Category 1)					
Gas under pressure (compressed gas)					
Skin irritation (Category 2)					
Eye irritation (Category 2A)					
Aspiration hazard (Category 1)					
Specific target organ toxicity – single exposure (Category 3), Central nervou	Specific target organ toxicity – single exposure (Category 3), Central nervous system				
Information elements (symbols, signal words, hazard statements and pr	ecautionary statements of the categor	y/subcategory)			
Danger					
H222 Extremely flammable aerosol.					
H229 Pressurized container: may burst if heated.					
H280 Contains gas under pressure; may explode if heated.					
H304 May be fatal if swallowed and enters airways.					
H315 Causes skin irritation.					
•	H319 Causes serious eye irritation.				
H336 May cause drowsiness or dizziness.	h t h - t f				
*** May displace oxygen and cause rapid suffocation. P210 Keep away fr					
No smoking. P211 Do not spray on an open flame or other ignition source					
dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P301+P310 IF SWALLOWED: Immediately call a doctor. P331					
DO NOT INDUCE VOMITING. P302+P352 IF ON SKIN, Wash with plenty of water for several minutes. P332 + P313 If skin irritation occurs:					
Get medical attention. P362+P364 Take off contaminated clothing and wash it before reuse. P305+P351+P338 IF IN EYES, Rinse cautiously with					
water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 If eye irritation persists: Get medical					
attention. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P312 Call a doctor if you feel unwell. P410+P412+P403+P233 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Store in a well-ventilated area. Keep					
container tightly closed. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or					
national regulations.					
Other hazards known     Simple Asphyxiants (Category 1)     A gas that is a simple asphyxiant***					
Section 3. Composition/information on ingredients					
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)			
Hexane	110-54-3	40-70			
Ethanol	64-17-5	10-30			
oppropanol         67-63-0         3-7					
Cthyl acetate         141-78-6         1-5					
Carbon dioxide 124-38-9 1-5					

Section 4. First-aid measures				
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.			
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if			
	victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have			
	victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.			
Skin contact	IF ON SKIN, Wash with plenty of water for several minutes (15-20). If skin irritation occurs: Get medical attention.			
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to			
	do. Continue rinsing. If eye irritation persists: Get medical attention.			
	s and effects (acute or delayed) Eye or skin irritation.			
Indication of immediate n	In all cases, call a doctor. Do not forget this document.			
Specific bezonds of the ba	Section 5. Fire-fighting measures zardous product (hazardous combustion products)			
	itant/toxic gases and fumes.			
Suitable and unsuitable ex	•			
	dioxide, chemical powder agent and appropriate foam to extinguish.			
	ent and precautions for fire-fighters			
	ic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper			
	If-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.			
	rea if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.			
	Section 6. Accidental release measures			
Personal precautions, pro	tective equipment and emergency procedures			
	il completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up			
	protective equipment (See Section 8).			
	r containment and cleaning up			
	top the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then			
	her for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.			
Notify the appropriate author				
	Section 7. Handling and storage			
Precautions for safe hand				
Wear protective gloves/ protective clothing/ eye protection/ face protection. Protect from sunlight. Do not expose to temperatures exceeding 50				
°C/122 °F. Keep away from heat/sparks/open flames/hot surfaces No smoking. Do not spray on an open flame or other ignition source. Do not				
pierce or burn, even after use. Use only outdoors or in a well-ventilated area.				
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect				
	handling. Label containers appropriately. Ensure proper ventilation. Do not breathe dust/fume/gas/mist/vapours/spray.			
	kin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or			
mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous.				
Refer also to Section 8. Keep out of reach of children.				
Conditions for safe storage, including any incompatibilities				
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10).				
Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of				
obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.				
Section 8. Exposure controls/Personal protection				
	ogical limit values or exposure limit values and source of those values)			
	54-3 – ACGIH – TLV-TWA (STEL) and/or PEL-TWA 50 ppm; CAS 64-17-5 – ACGIH – TLV-TWA 1000 ppm &			
	5 141-78-6 ACGIH – TLV-TWA 400 ppm & PEL-TWA 400 ppm; CAS 67-63-0 – ACGIH – TLV-TWA 200 ppm &			
TLV-STEL 400 ppm & PEL-TWA 400 ppm; CAS 124-38-9 – ACGIH – TLV-TWA & PEL-TWA 5000 ppm (STEL 30000 ppm).				
Appropriate engineering controls				
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below				
exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.				
Individual protection measures/personal protective equipment Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure				
	cally protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must			
be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face				
thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove				
and wash contaminated wor				

Section 9. Physical and chemical properties				
Appearance, physical state/colour         Clear liquid (aerosol)	<b>Vapour pressure</b> 70-80 psig @ 20°C			
Odour Alcohol	Vapour density Heavier than air			
Odour threshold Not available	<b>Relative density</b> ~0.69-0.73			
pH Not available	Solubility Negligible			
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available			
Initial boiling point/range 61-83°C	Auto-ignition temperature 225-422°C			
Flash pointNot available (flame projection > 45 cm & a flashback)	Decomposition temperature Not available			
<b>Evaporation rate</b> < 1 (n-Butyl acetate = 1)	Viscosity Not available			
Flammability (solids and gases) Extremely flammable aerosol	VOC Not available			
Upper and lower flammability/explosive limits 2.6 % // 19 %	Other None known			
Section 10. Stability	and reactivity			
<b>Reactivity</b> Does not react under the recommended storage and handling conditions prescril	bad			
Chemical stability	ucu.			
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
Keep away from heat, hot surfaces, sparks, open flames and other ignition s	sources. Do not pierce or burn, even after use. Protect from sunlight			
Do not expose to temperatures exceeding 50 °C/122 °F.				
Conditions to avoid (static discharge, shock or vibration)				
Keep away from heat, hot surfaces, sparks, open flames and other ignition so	ources. No smoking. Do not spray on an open flame or other ignition			
source. Do not pierce or burn, even after use. Protect from sunlight. Do not ex	xpose to temperatures exceeding 50 °C/122 °F.			
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				
Section 11. Toxicologi				
Information on the likely routes of exposure (inhalation, ingestion, skin a				
Causes skin irritation. Causes serious eye irritation. May be fatal if swalle	owed and enters airways. May cause drowsiness or dizziness. May			
displace oxygen and cause rapid suffocation.	4			
Symptoms related to the physical, chemical and toxicological characteristics Skin irritation. Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness, drowsiness, nausea and				
headaches.	, cougning, shortness of breath, dizziness, drowsiness, hausea and			
Delayed and immediate effects (chronic effects from short-term and long-term exposure)				
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available;				
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP; Reproductive Toxicity – No data available; Specific Target Organ Toxicity –				
Single Exposure - Possible; Specific Target Organ Toxicity - Repeated E				
Hazards Not Otherwise Classified – No data available.				
Numerical measures of toxicity (ATE; LD <sub>50</sub> & LC <sub>50</sub> )				
CAS 110-54-3 DL <sub>50</sub> Oral - Rat - 25 g/kg & LC <sub>50</sub> - Rat - 48000 ppm 4H; C				
ppm 4H; CAS 141-78-6 LD <sub>50</sub> Oral - Rat - 5600 mg/kg; CAS 67-63-0 LD <sub>50</sub> Oral - Rat - 4720 mg/kg; LC <sub>50</sub> Inhalation - Rat - 4 h - 17000 ppm;				
LD <sub>50</sub> Dermal - Rabbit - 12890 mg/kg;				
ATE not available in this document.				
Section 12. Ecological information           Ecotoxicity (aquatic and terrestrial information)         No data available for this product.				
Ecotoxicity (aquatic and terrestrial information)No data available for tPersistence and degradabilityNo data available for this product.	nis product.			
<b>Bioaccumulative potential</b> No data available for this product.				
Mobility in soil         No data available for this product.				
Other adverse effects         No data available				
Section 13. Disposal considerations				
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
UN1950; AEROSOLS; CLASS 2.1				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
UN1950; AEROSOLS; CLASS 2.1				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)				
UN1950; AEROSOLS, FLAMMABLE; CLASS 2.1				
	MITED QUANTITY in accordance with TDG.			
Environmental hazards (IMDG or other) None				
Bulk transport (usually more than 450 L in capacity) Not possible				

		Section 15. Regulatory information		
Safety/health Canadian regulations specifics		Refer to Section 2 for the appropriate classification. This product has been classified in		
accordance with the hazard criteria of the Hazardous Products Regulations (HPR).				
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL				
	vironmental outside regulation			
United States OS	SHA information: This product is	regulated according to OSHA (29 CFR).		
United States EF	PA (Environmental Protection Age	ency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.		
United States TO	CSA information: Refer to the ing	redients listed in Section 3.		
National Fire Pro	otection Association (NFPA):			
HEALTH: 2		TABILITY: 1SPECIAL HAZARDS: Refer to Section 2 & 3.		
HAZARD SCAI	LE: $0 = Minimal$ $1 = Slight 2$	= Moderate $3 =$ Serious $4 =$ Severe
